ALABAMA'S NEW CHECK LAW.

On August 17 Alabama slipped quietly under the operation of a new check law which ought to be the means of breaking up a pernicious practice that of giving checks on banks without having funds there to meet them. The new law is part of the legacy embraced in the New Code. It was not specifically enacted by the legislature, but it was part of the agenda that was carried along when the perfected document was presented for passage.

It provides a maximum penalty of a fine of \$1,000.00, together with imprisonment for six months in jail for issuing a check on a bank when there is not sufficient funds on deposit to pay it. The old law required that a seven day notice be given the drawer of a check before proceedings could be instituted charging a misdemeanor. Should the maker of the check produce the funds, no action would be taken, and the matter would be dropped.

The new law contains no seven day provision, but criminal action may be taken at once when a check is returned marked "insufficient funds." This

refusal of the bank to pay is prima facie proof of a purpose to defraud. The law it would appear was primarily intended to do a good turn for the banks in mitigating the prevalent custom of over-drawing. —Selma Times.

On account of the Fourth Quarterly Conference being held so early in the quarter, Dr. Hurt will visit this church on Wednesday November 5th at 11 a. m., to finish the business of the adjourned conference held at Ham's a week ago. This will bring us right up to conference when we can have all reports in.

We are grateful to Brother Hicks for the acceptable service he has rendered the Ham congregation in holding a week's meeting in that community in the pastor's absence, who took a six-hundred mile trip with his children to shelve root to a family reunion where there were grandchildren of five families assembled at their grand-mother's.

Speaking of dry weather, the vicinity of Shreveport has just been visited by a rain which was the first for 77 days. There are practically no crops, not even gardens, and water was very precious. Any pasture would burn if set on fire, and there was not green grass enough for a goose to eat. We ought to thank the Lord for the good crops and propitious times we are enjoying. The new Ford given to the pastor by these generous-hearted Elba people made it possible to make this trip. We thank you every one for your liberal contribution.

We are glad to report that the little son of Mr. Leslie Lee and wife has been dismissed by the doctor. He had diphtheria and was treated with antitoxin. We are in the beginning of the end of the conference. We have enjoyed some notable preaching from one of the great preachers of the nation, Dr. Culpenny, and this will be a focal date for a long time in an hour. ROBINSON CRUSOE GOOD ADVERTISER.
One of the most persistent advertisers in the history of success was Robinson Crusoe. He knew what he wanted—ship—and he put up an ad for one. He hung a shirt on a pole, at the top of his island; that, in the language of the sea was plain to every sea-faring man.

The circulation was small—there was no other medium, but Crusoe kept at it, despite the fact that he got no inquiries for a long time. He changed his copy—as one garment after another—trayed out, and in the end got what he wanted. Suppose Crusoe had taken down that signal after a time and declared "Advertising doesn't pay," where would he and his story be now?

Put up your signal and keep it there. Crusoe advertised for worship and preaching, for very discouraging circumstances. You've got a sure thing—it is not necessary to have the patience, persistence and pluck of Robinson Crusoe. Come and study these great questions with us. Let's hang the truth for "his tooth and nail" and the good ship "business" will soon be up and side your pier.

We invite all to be present Sunday morning and evening for worship and preaching. Morning subject: "The Way of Life." Evening subject: "What Must I Do to Be Saved." Come and study these great questions with us. Let's hang the truth for "his tooth and nail" and the good ship "business" will soon be up and side your pier.

TRAIN RUNS THREE MILES UNGUIDED; ENGINEER DEAD.

Macon, Ga., August 25.—A Southern Railway freight train ran for three miles Sunday night on the main line between Macon and Atlanta without an engineer at the throttle.

When the fireman, Gibb Adams, negro, discovered that the engineer was not blowing for crossings, he investigated and found the engineer's seat vacant.

The fireman brought the train to a stop. The crew went back along the track three miles and found the lifeless body of the engineer, Guy N. Hancock, of Atlanta, Ga., on the ground.

The only injury noticeable was a broken leg. It is believed that he died of heart failure and fell out of the cab while the train was running 30 miles an hour.

Hancock was the oldest freight engineer on the Macon-Atlanta division of the Southern Railway.

GRAVE YARD WORKING.

There will be a grave yard working at Woodland Grove on the second Saturday in September. All parties interested in the cemetery at that place are requested to meet at 9:30 A. M., and bring hoes, axes and other tools for cleaning off the grounds.

ROBINSON CRUSOE GOOD ADVERTISER.

One of the most persistent advertisers in the history of success was Robinson Crusoe. He knew what he wanted—ship—and he put up an ad for one. He hung a shirt on a pole, at the top of his island; that, in the language of the sea was plain to every sea-faring man.

The circulation was small—there was no other medium, but Crusoe kept at it, despite the fact that he got no inquiries for a long time. He changed his copy—as one garment after another—trayed out, and in the end got what he wanted. Suppose Crusoe had taken down that signal after a time and declared "Advertising doesn't pay," where would he and his story be now?
